HOME SOLUTIONS WELCOMES INTERIOR RESOURCE GROUP

(Marietta, GA) – Home Solutions, the nation's premier residential contractor network, announced that they've welcomed an old friend back to the group.

Interior Resource Group, a full-service, interior finish company, offers a wide variety of products for all types of residential and commercial projects. Operating out of Denver, CO, Interior Resource Group was founded by Andrew Schoepke and Matt Callahan in March 2007. Matt and Andrew have over 25 years combined flooring experience and both have ties to Arvada Hardwood Floor Company, a founding FloorExpo member.

They are excited to be a part of the FloorExpo team again and, says Andrew, "look forward to getting reacquainted with old friends and developing new relationships that are mutually beneficial and will help grow the business."

Both Matt and Andrew have two small children at home. If there's time to spare, you'll find Matt camping or fly fishing, while Andrew's passions are at one extreme and another - motors sports and golf.
